

MaxiCut® Oil™

34-505

A lightweight glove designed for precision handling in oily environments where dexterity and protection are equally critical. Featuring a palm coating that repels oils and improves grip, it delivers EN 388 Cut Level B resistance for tasks involving light to moderate cut risks.

The glove's streamlined design enhances fingertip sensitivity, while GRIPtech® and CUTtech® technologies work together to provide control and confidence when handling slick or sharp components. With a reinforced thumb crotch and skin-safe construction, it's built for comfort and durability across long shifts.

¾ Coated for Extended Coverage

The coating extends over the knuckles for added protection against rough surfaces, grime, and abrasion. Enhanced durability without compromising flexibility.

Secure Grip in Slippery Conditions

GRIPtech® micro-cup finish improves handling precision in wet, dry, or oily environments helping reduce accidents and fatigue.

Cut Level B Protection

CUTtech® fibres offer protection against minor cuts and abrasions. Ideal for lower-risk, high-precision environments.

Skin-Safe & Washable at 40°C

OEKO-TEX® certified, dermatologically accredited, and pre-washed for immediate skin-safe use. Part of ATG's HandCare® programme. Designed for multiple wears, maintaining hygiene and performance after washing at 40°C to reduce waste and extend glove life.
