

MaxiCut® Oil™

44-304

MaxiCut® Oil™ delivers advanced cut protection and extended coverage for work involving sharp materials and oil exposure.

Combining EN 388 Cut Level B resistance with a GRIPtech® micro-cup finish, this glove improves handling control in oily or slippery environments. A reinforced thumb crotch adds extra durability in high-stress zones, while ergonomic shaping reduces fatigue across long shifts. Confident protection with extended coverage without sacrificing dexterity.

Enhanced Grip

With an optimised micro-cup finish, GRIPtech® ensures a secure and controlled grip, minimising slippage and increasing safety.

Reinforced for Durability

Features a reinforced thumb crotch for improved wear resistance and extended glove life in high-stress areas.

Cut Level B Protection

CUTtech® fibres offer protection against minor cuts and abrasions. Ideal for lower-risk, high-precision environments.

Form, fit, feel for reduced hand fatigue

Designed to mimic the natural “hand at rest” position, the glove reduces muscle strain and hand fatigue. Combined with an ultra-lightweight liner and smooth, rounded fingertips, it enhances comfort and fingertip sensitivity.
