

MaxiDry® Elite™

64-225

MaxiDry® Elite™ is our thinnest and lightest glove for oily applications, with a material thickness of just 0.70 mm. Designed for precision handling, it delivers the same grip, liquid repellence, and flexibility as MaxiDry®, but with an ultra-light feel for maximum comfort.

For the first time, we've integrated AD-APT® Cooling Technology, keeping your hands cool and dry as you work. So light and breathable, you'll hardly feel it's there, but you'll know it's working.

Ultra-Thin & Oil Resistant

Just 0.70 mm thick with LIQUITECH® barrier. Reliable protection against oils, greases, and coolants without added bulk.

Ultra Light

At just 26g you won't feel them until you need them.

AD-APT® Cooling Technology

Heat-activated and motion-responsive. Keeps hands cooler, drier, and fresher.

Touchscreen Compatible

Use devices without removing your gloves. Stay connected, efficient, and protected on the job.
