proRange®

MaxiCut® Oil™

34-450LP

A lightweight glove designed for precision handling in oily environments where dexterity and protection are equally critical. Featuring a palm coating that repels oils and improves grip, it delivers ANSI A3 cut resistance for tasks involving light to moderate cut risks.

The glove's streamlined design enhances fingertip sensitivity, while GRIPtech® and CUTtech® technologies work together to provide control and confidence when handling slick or sharp components. With a reinforced thumb crotch and skin-safe construction, it's built for comfort and durability across long shifts.

Extended Knitwrist for Extra Protection

Longer cuff keeps out oils, debris, and particulates, enhancing wrist coverage without compromising flexibility.

Cut Level A2 Protection

CUTtech® fibers offer protection against minor cuts and abrasions. Ideal for lower-risk, high-precision environments.

Enhanced Grip

With an optimized micro-cup finish, GRIPtech® ensures a secure, controlled grip, minimizing slippage and enhancing safety.

Breathability

Flat dipping technology increases breathability and reduces perspiration, improving comfort throughout the working day.
