MaxiChem® Cut™

76-733

MaxiChem® Cut™ combines cut protection and chemical resistance with unmatched comfort. Built with TRItech™ technology, it's 30% thinner and 100% more comfortable, offering high mechanical performance and Type A chemical resistance (EN ISO 374:2016 + A1:2018).

Featuring a three-layer construction, it ensures liquid repellence, dexterity, and grip, while maintaining flexibility. Dermatologically accredited and pre-washed, MaxiChem® Cut™ is ideal for those working with both chemicals and cut hazards, setting a new standard for chemical protection.

Dual Protection in One Glove

Combines advanced chemical resistance with EN 388 Level C cut protection safeguarding against both mechanical and chemical risks in high-exposure environments.

Lightweight TRItech® Construction

Built with ATG®'s TRItech® technology, delivering a unique blend of comfort, dexterity, and barrier protection without the bulk typically associated with chemical-resistant gloves.

Enhanced Grip

With an optimised micro-cup finish, GRIPtech® ensures a secure and controlled grip, minimising slippage and increasing safety.

Skin-Friendly & Pre-Washed

OEKO-TEX® certified, dermatologically accredited, and pre-washed for immediate skin-safe use. Part of the ATG® HandCare® programme for long-term wearer wellbeing.
