

MaxiDry®

56-427

Designed for precision work in environments where protection from oils and liquids is essential. Combining lightweight construction with a high-performance palm coating, MaxiDry® delivers reliable liquid repellency without compromising comfort or dexterity.

The glove is engineered for dry and slightly oily conditions, offering excellent grip, flexibility, and long-lasting wear. It's ideal for industries like automotive, light manufacturing, and maintenance where clean handling and tactile control are critical.

Ultra-Lightweight and Thin Design

At just 1.00 mm thick and weighing 34g, it offers a second-skin feel. Perfect for applications that demand dexterity without compromising safety.

Certified Liquid and Chemical Repellency

LIQUtech® provides protection against oils, liquids, and chemical splashes. Ideal for environments where fluid exposure is routine but flexibility is essential.

Enhanced Grip

With an optimised micro-cup finish, GRIPtech® ensures a secure and controlled grip, minimising slippage and increasing safety.

Skin-Friendly & Pre-Washed

OEKO-TEX® certified, dermatologically accredited, and pre-washed for immediate skin-safe use. Part of the ATG® HandCare® programme for long-term wearer wellbeing.
