

MATERIAL SAFETY DATA SHEET

MaxiCut® Ultra DT™ 52-3455

General description

MaxiCut® Ultra DT™ - Added cushioning for comfort for repetitive handling.

MaxiCut® Ultra DT™ builds on the trusted protection of MaxiCut® Ultra™, adding raised dots on the palm to deliver extra cushioning and grip during repetitive or high-contact tasks.

Combining CUTtech® for high cut protection, AIRtech® for 360° breathability, and DURatech® for exceptional durability, this version ensures safety and comfort even under demanding conditions.

The dotted palm design reduces fatigue and enhances comfort where it is needed most, making MaxiCut® Ultra DT™ ideal for tasks that require both precision handling and long-lasting wear.

MaxiCut® Ultra DT™ - High cut protection with added cushioning and grip.

Compliances

ATG®, hereby declares, that this PPE Type is in conformity with the relevant Union harmonisation legislation: Regulation (EU) 2016/425 and the relevant harmonized standards No.: EN ISO 21420:2020 - General requirements, EN 388:2016 + A1:2018.

Use

Cut resistant work glove for Assured Protection™ in dry environments.

For detailed applications where this product can be used please consult the ATG® website at www.atg-glovesolutions.com.

Main ingredients

Liner: Polyester, Spandex, UHMWPE-Glass-Nylon

Hazardous ingredients

REACH

All ingredients used in the manufacturing and construction of this product are compliant with the EU directive for the "Regulation of chemicals and their safe use" more commonly known as REACH -- EU directive EC 1907/2006. REACH stands for "Registration, Evaluation, Authorisation and Restrictions of Chemical substances". The key aim of REACH is to provide high levels of protection to human health and the environment.

More information can be found at: <https://single-market-economy.ec.europa.eu/sectors/chemica>.

OEKO-TEX®

This product has been tested and successfully passed the OEKO-TEX® STANDARD 100 global standard which indicates that the product is skin friendly. Look for the OEKO-TEX® logo to make sure you are buying a skin safe product.

More information can be found at: www.oeko-tex.com.

Precautions for use

Before usage, inspect the protective product for any defects or imperfections. If it is ripped or punctured during use dispose them immediately. Wear an appropriate size as too loose or too tight fitting products increase the risk for injuries.

Storage requirements

Store in a cool; dry place which is away from direct sunlight and/or heat. Extended exposure to direct sunlight or excessive heat will reduce shelf life and resulting in fading, discoloration and cracking. Normal anticipated shelf life is 5 years.

Disposal

After the product has been used it may be contaminated with infectious or other hazardous materials. Please dispose to local authority regulations.

Fire notes

The product will decompose at high temperatures. Extinguish using water, CO₂ spray or dry powder.

First aid

Remove contaminated PPE (Personal Protective Equipment). Skin contact: if an allergic reaction occurs seek medical advice immediately. Eye contact; rinse thoroughly with low pressure water. If any prolonged discomfort, seek medical advice immediately.
