MaxiChem® Cut™

76-833

MaxiChem® Cut™ combines cut protection and chemical resistance with consistent comfort. Built with TRItech™ technology, it's 30% thinner and delivers improved comfort while maintaining high mechanical performance and Type A chemical resistance (EN ISO 374:2016 + A1:2018).

Featuring a three-layer construction, it ensures liquid repellency, dexterity, and grip, while maintaining flexibility. Dermatologically accredited and pre-washed, MaxiChem Cut is ideal for those working with both chemicals and cut hazards, setting a new standard for chemical protection.

Lightweight TriTech® Construction

Built with ATG®'s TRItech® technology, delivering a unique blend of comfort, dexterity, and barrier protection without the bulk typically associated with chemical-resistant gloves.

Skin-Friendly & Pre-Washed

OEKO-TEX® certified, dermatologically accredited, and pre-washed for immediate skin-safe use. Part of the ATG® HandCare® programme for long-term wearer wellbeing.

High-Level Chemical Resistance

Tested and certified to EN ISO 374 for protection against hazardous chemicals. Ideal for users working with industrial substances, solvents, and liquids requiring extended contact protection.

Cut Level A2 Protection

CUTtech® fibers offer protection against minor cuts and abrasions. Ideal for lower-risk, high-precision environments.
