proRange®

MaxiDry® Plus™

56-530

MaxiDry® Plus™ offers all the benefits of MaxiDry®, including comfort, flexibility, grip, and liquid repellence, but with enhanced chemical resistance. Designed for workers handling hazardous substances, it is certified as a Type B product under EN ISO 374:2016 + A1:2018, ensuring reliable protection against a range of chemicals while maintaining dexterity and control in demanding environments.

Certified Liquid and Chemical Repellency

LIQUItech® provides protection against oils, liquids, and chemical splashes. Ideal for environments where fluid exposure is routine but flexibility is essential.

Enhanced Grip

With an optimised micro-cup finish, GRIPtech® ensures a secure and controlled grip, minimising slippage and increasing safety.

Form, fit, feel for reduced hand fatigue

Designed to mimic the natural “hand at rest” position, the glove reduces muscle strain and hand fatigue. Combined with an ultra-lightweight liner and smooth, rounded fingertips, it enhances comfort and fingertip sensitivity.

Skin-Safe & Ready to Wear

Pre-washed, OEKO-TEX® certified, and dermatologically accredited. Part of ATG®’s HandCare® programme for skin health and user confidence.
