

MaxiCut®

ULTRA™

proRange®

MaxiCut® Ultra™ Sleeves are the perfect companion for one of our cut gloves to offer increased protection for your arm.

Certified to be washed.
CLEAN, FRESH AND COST EFFECTIVE

TECHNOLOGIES INSIDE

Comfortable cut protection

Cut protection is the most challenging aspect of glove technology. However, theoretical protection does not necessarily translate into practical benefits if wearer comfort is compromised.

Our CUTtech® technology is used to create carrier materials that provide the desired cut protection while remaining stretchable and flexible without breaking, enhancing the wearer experience. We meticulously build the fiber bundles ourselves, this way we can perfectly match them to our coating. For maximum cut protection, we use UHMWPE, glass, Kevlar® and metal fibers which we combine flexible nylon, elastane and polyester yarns to create a high-performance material.

Additionally, we reinforce the area between thumb and forefinger with a special nitrile patch to enhance the gloves' durability.

CUTtech® – optimum cut resistance through to innovative fiber construction.

CLEANLINESS GUARANTEED

We use our HandCare® Program for every single ATG® product. Not only do we make certain that all the elements used in our manufacturing process are safe for our employees, we also wash all the gloves after the production process as a further step in ensuring cleanliness. During this laundering process, we prefer the use of water that is rain-harvested, treated and continually recycled from our own water treatment facilities.

This enables us to guarantee our gloves to be “Fresh out of the pack” which is certified by Oeko-Tex® according to Standard 100. We do not use any SVHC during our manufacturing process.

And if that wasn't enough our gloves are also dermatologically accredited by the Skin Health Alliance. The Skin Health Alliance seal gives, for the first time in the safety industry, professional glove users the confidence that ATG®'s full range of gloves are “dermatologically safe” and the science and research behind them is robust.

More information about HandCare® by ATG® is available at www.atg-glovesolutions.com.
